Forrestal Building, Room 3E-042  
1000 Independence Avenue SW.  
Washington, DC 20585

Dear Ms. Moore:

I am writing in support of Cameron LNG (Sempra Energy)'s application seeking authority to export liquefied natural gas from its facility located in Cameron Parish, Louisiana.

For over a decade, I have had the pleasure and privilege of working with and representing the fine people of Southwest Louisiana in the Louisiana Legislature. We have seen tough times and terrible storms but we have also been blessed with abundant resources and great friends.

Sempra has been part of that story in every way. They invested in our region years ago and produced hundreds of construction jobs and good paying permanent jobs with the development of Cameron LNG. The proposed expansion will produce hundreds of new construction jobs and more quality permanent jobs.

When Hurricanes Rita and Katrina devastated us Sempra was a tremendous resource for recovery and restoration from clearing roads to rebuilding high school gyms. Sempra has also worked closely with us on progressive projects to restore our wetlands and have been a responsible corporate citizen across the board.

Our region and our people are proud to be part of energy future of our country and the world. We support the improvements and additions to Cameron LNG and reiterate our strong support for the approval of the Cameron LNG application.

Sincerely,

Honorable Dan Morrish  
Louisiana State Senate

Bcc: Mark Nelson
