RE: Golden Pass Products, LLC
Application for Long-Term Authorization to Export Liquefied Natural Gas
FE Docket No. 12-156-LNG

Dear Mr. Anderson:

On Behalf of the Lamar Institute of Technology, I am writing in support of the Golden Pass Products, LLC Applications for long-term authorization to export liquefied natural gas to non-free Trade Agreement countries.

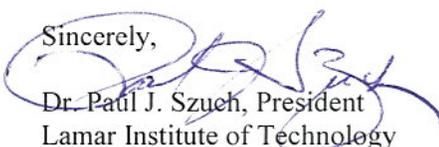

Golden Pass Products, LLC is proposing to invest about \$10 billion in infrastructure to expand The Golden Pass LNG facility, an existing import terminal positioned on the Sabine-Neches waterway. The project would export LNG to Free Trade Agreement and non-Free Trade Agreement countries. Such a significant investment would be a key economic driver to the region by creating thousands of jobs, increasing tax revenues and generating extensive economic activity.

Lamar Institute of Technology has enjoyed a strong relationship with Golden Pass. We have Partnered on numerous workforce related development and training activities, during both construction and on-going operations. I can personally attest the commitment to excellence, operational performance and community leadership.

The jobs created by the constitution and operations of the Golden Pass Products export project would create tremendous opportunities throughout the local, regional and national workforce. The proposed expansion would enhance in the quality of life in Southeast Texas and the region.

Golden Pass Products has much to add to the future prosperity of our area. I strongly encourage The U.S. Department of Energy to promptly approve the Golden Pass Products application to export LNG to non-FTA countries.

Sincerely,

Dr. Paul J. Szueh, President
Lamar Institute of Technology
