ORDER GRANTING BLANKET AUTHORIZATION
TO IMPORT AND EXPORT NATURAL GAS, INCLUDING
LIQUEFIED NATURAL GAS FROM AND TO CANADA AND MEXICO

DOE/FE ORDER NO. 1953

MARCH 9, 2004
I. DESCRIPTION OF REQUEST

On February 13, 2004, Citadel Energy Products LLC (Citadel) filed an application with the Office of Fossil Energy of the Department of Energy (DOE), under section 3 of the Natural Gas Act \(^1\) (NGA), requesting authority to import and export up to a combined total of 20 billion cubic feet (Bcf) of natural gas, including liquefied natural gas (LNG), from and to Canada and Mexico. The term of this authorization is for a two-year period beginning on the date of the issuance of this Order. Citadel, a Delaware corporation with its principal place of business in Chicago, Illinois, is a subsidiary of CWEH LLC. Citadel will import and export the natural gas and LNG under short-term and spot market transactions. The requested authorization does not involve the construction of new pipeline or receiving facilities.

II. FINDING

The application filed by Citadel has been evaluated to determine if the proposed import and export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import or export of natural gas from or to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas, and the importation of LNG from an international source not subject to trading sanctions, are deemed to be consistent with the public interest and must be granted without modification or delay. The authorization sought by Citadel to import and export natural gas, including LNG, from and to Canada and Mexico, nations with which free trade agreements are in effect, meets the section 3(c) criterion and, therefore, is consistent with the public interest.
