ORDER GRANTING BLANKET AUTHORIZATION TO
EXPORT NATURAL GAS TO CANADA

DOE/FE ORDER NO. 2652

JUNE 18, 2009
I. DESCRIPTION OF REQUEST

On May 21, 2009, Repsol Energy North America Corporation (Repsol) filed an application with the Office of Fossil Energy (FE) of the Department of Energy under section 3 of the Natural Gas Act (NGA)\(^1\) for blanket authorization to export up to 40 billion cubic feet (Bcf) to Canada. The applicant requests the authorization be granted for a two-year term beginning on the date this Order is issued. Repsol is a Delaware corporation with its principal place of business in The Woodlands, Texas.

II. FINDING

The application has been evaluated to determine if the proposed import and export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import and export of natural gas, including liquefied natural gas (LNG), from and to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest and must be granted without modification or delay. The authorization sought by Repsol to export natural gas to Canada, a nation with which a free trade agreement is in effect, meets the section 3(c) criterion and, therefore, is consistent with the public interest. This Order authorizes transactions with terms of no longer than two years.

\(^1\) 15 U.S.C. § 717b. This authority is delegated to the Assistant Secretary for FE pursuant to Redelegation Order No. 00.602.04D (November 6, 2007).

B. This natural gas may be exported at any point on the border between the United States and Canada.

C. Monthly Reports: With respect to the natural gas imports and exports authorized by this Order, Repsol shall file with the Office of Natural Gas Regulatory Activities, within 30 days following the last day of each calendar month, a report indicating whether imports or exports of natural gas have been made.
