ORDER GRANTING BLANKET AUTHORIZATION TO
IMPORT LIQUEFIED NATURAL GAS
FROM CANADA BY TRUCK

DOE/FE ORDER NO. 3268

APRIL 12, 2013
I. DESCRIPTION OF REQUEST

On March 20, 2013, Gaz Métro Solutions Transport (Gaz Métro) filed an application with the Office of Fossil Energy (FE) of the Department of Energy, under section 3 of the Natural Gas Act (NGA)\(^1\) for blanket authorization to import liquefied natural gas (LNG) from Canada by truck up to the equivalent of 1.2 billion cubic feet (Bcf) of natural gas. The applicant requests the authorization be granted for a two-year term beginning on June 15, 2013. Gaz Métro is a Canadian limited partnership with its principal place of business in Boucherville, Quebec.

II. FINDING

The application has been evaluated to determine if the proposed import and/or export arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import and export of natural gas, including LNG, from and to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas and the import of LNG from other international sources are deemed to be consistent with the public interest and applications for such imports or exports must be granted without modification or delay. The authorization sought by Gaz Métro to import LNG from Canada by truck, meets the section 3(c) criterion and, therefore, is consistent with the public interest. This Order authorizes transactions with terms of no longer than two years.

---

\(^1\) The authority to regulate the imports and exports of natural gas, including liquefied natural gas, under section 3 of the NGA (15 U.S.C. § 717b) has been delegated to the Assistant Secretary for FE in Redelegation Order No. 00-002.04E (April 29, 2011).
