I fully support the applications for LNG exports. The benefits realized from such are numerous, but one most affecting my organization, one which I am deeply passionate about, is the job creation resulting from this endeavor. As the Deputy Cabinet Secretary for the West Virginia Department of Veterans Assistance, I know that LNG exports will not only drive additional production, but will also create thousands of additional job opportunities for our Veterans. Jobs in engineering, manufacturing, construction, and operation of the export infrastructure, as well as others indirectly along the equipment supply chain. Our Veterans our highly skilled, well trained, dedicated men and women who could benefit greatly from this opportunity. I believe that if we engage in this opportunity we will see not only additional job opportunities for our veterans and in general our country, but we will see increased economic growth and improved national security.

Thanks!
