To Whom It May Concern:

I am submitting this email message as my support to accept and approve the conclusions of 2012 LNG Export Study. The United States continues to limp out of the deep 2008 recession and is in dire need for adding jobs to the nation's workforce. Through the execution of the several planned LNG Liquefaction projects planned, thousands of engineering, construction, and permanent operations jobs will be created over the next 5 to 7 years. Each of these jobs will play a key role in helping improve the economic condition of the United States.

With Best Regards,

Harry Dutreix
Kingwood, Texas
