\_\_\_\_\_)  
NORTH AMERICAN ENERGY, INC. ) FE DOCKET NO. 96-20-NG  
\_\_\_\_\_

ORDER GRANTING BLANKET AUTHORIZATION  
TO IMPORT NATURAL GAS FROM CANADA

DOE/FE ORDER NO. 1162

\_\_\_\_\_  
  
APRIL 30, 1996  
  
\_\_\_\_\_

I. DESCRIPTION OF REQUEST \_\_\_\_\_

On April 17, 1996, North American Energy, Inc. (North American) filed an application with the Office of Fossil Energy of the Department of Energy (DOE), under section 3 of the Natural Gas Act (NGA)1/, and DOE Delegation Order Nos. 0204-111 and

0204-127, requesting blanket authorization to import up to 15 Bcf of natural gas from Canada over a period of two years beginning on the date of first import. North American is a Delaware corporation with its principal place of business in Westfield, New York. North American states that the terms and conditions of contracts executed under this authority will vary with market conditions and will likely be short-term; consequently, the contracts will reflect the market sensitive price of gas at the point of sale. The requested authorization does not involve the construction of new pipeline facilities.

II. FINDING \_\_\_\_\_

The application filed by North American has been evaluated to determine if the proposed import arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the importation of natural gas from a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas is deemed to be consistent with the public interest and must be granted without modification or delay. The authorization sought by North American to import natural gas from Canada, a nation with which a

1. 15 U.S.C. 717b.

free trade agreement is in effect, meets the section 3(c) criterion and, therefore, is consistent with the public interest. This blanket order authorizes transactions under contracts with terms of no longer than two years.

ORDER

---

Pursuant to section 3 of the Natural Gas Act, it is ordered that:

A. North American Energy, Inc. (North American) is authorized to import from Canada, at any point on the international border, up to 15 Bcf of natural gas over the two-year term beginning on the date of first delivery.

B. Within two weeks after deliveries begin, North American shall provide written notification to the Office of Fuels Programs, Fossil Energy, Room 3F-056, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585, of the date that the first import of natural gas authorized in Ordering Paragraph A above occurred.

C. With respect to the natural gas imports authorized by this Order, North American shall file with the Office of Fuels Programs, within 30 days following each calendar quarter, quarterly reports indicating whether imports of natural gas have been made. If no imports have been made, a report of "no activity" for that calendar quarter must be filed. If imports occur, North American must report total monthly volumes in Mcf and the average purchase price per MMBtu at the international border. The reports shall also provide the details of each

import transaction, including: (1) the name of the seller(s); (2) the name of the purchaser(s); (3) the estimated or actual duration of the agreement(s); (4) the name of the U.S. transporter(s); (5) the point(s) of entry; (6) the geographic market(s) served; (7) whether sales are being made on an interruptible or firm basis; and, if applicable, (8) the per unit (MMBtu) demand/commodity/reservation charge breakdown of the contract price.

D. The first quarterly report required by Ordering Paragraph C of this Order is due not later than July 30, 1996, and should cover the period from the date of this Order until the end of the second calendar quarter, June 30, 1996.

Issued in Washington, D.C., on April 30, 1996.
