I. DESCRIPTION OF REQUEST

On May 8, 2000, Sempra Energy Trading Corp. (Sempra) filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE), under section 3 of the Natural Gas Act\(^1\) (NGA) and DOE Delegation Order Nos. 0204-111 and 0204-127, for an amendment to its existing import/export authorization issued in DOE/FE Order No.1487 (Order 1487).\(^2\) Order 1487 authorized Sempra to import up to 300 billion cubic feet (Bcf) of natural gas and to export up to 300 Bcf of natural gas from and to Canada, and to import up to 300 Bcf of natural gas and to export up to 300 Bcf of natural gas from and to Mexico over a two year term that will expire June 15, 2001. Sempra requests that Order 1487 be amended to allow the importation of up to an additional 300 Bcf of liquefied natural gas from any international source to existing receiving facilities in the United States. Sempra, a Delaware corporation with its principal place of business

in Stamford, Connecticut, is engaged in the business of dealing and trading commodities, including, but not limited to, natural gas.

II. FINDING

The application filed by Sempra has been evaluated to determine if the proposed import arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the importation of LNG is deemed to be consistent with the public interest and must be granted without modification or delay. The authorization sought by Sempra to import LNG meets the section 3(c) criterion and, therefore, is consistent with the public interest.
