ORDER GRANTING BLANKET AUTHORIZATION TO IMPORT NATURAL GAS FROM CANADA

DOE/FE ORDER NO. 1608

JULY 3, 2000
I. DESCRIPTION OF REQUEST

On July 3, 2000, Avista Corporation (Avista) filed an application with the Office of Fossil Energy (FE) of the Department of Energy (DOE), under section 3 of the Natural Gas Act\(^1\) (NGA) and DOE Delegation Order Nos. 0204-111 and 0204-127, requesting authority to import up to 100 billion cubic feet of natural gas from Canada over a two year term beginning June 26, 2000.\(^2\) Avista is a Washington State corporation with its principal place of business in Spokane, Washington. Avista owns and operates electric power generation, transmission and distribution facilities in eastern Washington and northern Idaho and provides natural gas service, at retail, to customers within the states of Washington, Idaho, Oregon and California. The requested authorization does not involve the construction of new pipeline facilities.

II. FINDING

The application filed by Avista has been evaluated to determine if the proposed import arrangement meets the public interest requirement of section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub. L. 102-486). Under section 3(c), the import or export of natural gas from or to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas is deemed to be consistent with the public interest and must be granted without modification or delay. The authorization sought by Avista to import natural gas from Canada, a nation with which a free trade agreement is in effect, meets the section 3(c) criterion and, therefore, is consistent with the public interest. This blanket order authorizes transactions under contracts with terms of no longer than two years.

\(^2\) June 25, 2000, was the expiration date of Avista’s previous import authorization granted by DOE/FE Order No. 1381 on May 7, 1998 (1 FE ¶ 71,557).
