ORDER AMENDING BLANKET AUTHORITY TO
IMPORT AND EXPORT NATURAL GAS
FROM AND TO CANADA

DOE/FE ORDER NO. 1723-A

On November 16, 2001, PG&E Energy Trading, Canada Corporation (ET-Canada) filed an
application with the Office of Fossil Energy (FE) of the Department of Energy (DOE), under section 3
of the Natural Gas Act (NGA) \(^{1}\) and DOE Delegation Order Nos. 0204-111 and 204-127, to amend
its blanket import authorization to include authority to export up to 150 Bcf of natural gas to Canada.
ET-Canada is currently granted under DOE/FE Order No. 1723 (Order 1723) authority to import up

to 150 Bcf of natural gas from Canada over a two-year term beginning on the date of first delivery. ET-Canada has not begun imports under this authorization.

Under section 3 of the NGA, as amended by section 201 of the Energy Policy Act of 1992 (Pub L. 102-486), the import and export of natural gas from and to a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas is deemed to be consistent with the public interest, and related applications must be granted without modification or delay. ET-Canada’s application to amend its current import authority to include the export of natural gas to Canada meets the section 3(c) criterion and, therefore, is consistent with the public interest.

ORDER

Pursuant to section 3 of the Natural Gas Act, it is Ordered that:

A. DOE/FE Order No. 1723 (Order 1723) issued on October 19, 2001, is amended to authorize PG&E Energy Trading, Canada Corporation to include the export up to 150 Bcf of natural gas to Canada over a two-year beginning on the date of first delivery of either the import or export.

B. All other terms and conditions contained in Order 1723 shall remain in full force and effect.
